Application of Cady Application No. 10/808,008

Filed: 03/24/2004 Page 2

## **Amendments**

In accordance with 37 CFR §1.121, please amend the above-identified application as set forth below.

Amendments to the Claims: The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-15. (Cancelled)

11

16. (Previously presented)A method of treating migraine, comprising the steps of:

reconstituting a pharmaceutically effective amount of Botulinum toxin type A with saline;

mixing the reconstituted Botulinum toxin type A with a base including a pluronic lecithin organogel; and

transdermally applying the mixture of reconstituted Botulinum toxin type A and base to an affected area of a human exhibiting symptoms of migraine.

- 17-21. (Canceled).
- 22. (Currently amended) A method of inhibiting the release of neurotransmitters in trigeminal neurons, comprising the steps of:

preparing a topical solution in which Botulinum toxin type A is the active ingredient, wherein the step of preparing a topical solution further comprises the steps of: reconstituting a pharmaceutically effective amount of Botulinum toxin

type A with saline; and
